## HONDA GENERATORS

### INDUSTRIAL SERIES

Honda's legendary industrial generators have earned a reputation in the construction and rental industries for their incredibly rugged reliability. A recent Independent Survey of Construction and Industrial Users rated Honda #1. All EB series Honda generators come standard with full generator GFCI circuit protection for OSHA-regulated jobsites.\* The EB3000c model features Honda's CycloConverter™ technology, which makes it dramatically lighter than other competitive units producing the same amount of power.

The industrial EB4000, EB5000 and EB6500 models use a Honda commercial-grade overhead valve engine and feature a large 6.6 gallon fuel tank, easy-access outlet panel and an additional duplex outlet.

All of these generators are backed by Honda's commercial use warranty and legendary reputation for performance, durability and reliability.

\*Except EB3000c

#### EB3000C

- 3000 watts, 120V
- Lightweight - only 68 lbs
- Honda commercial OHV engine
- Exclusive CycloConverter technology
- GFCI receptacle
- 12V DC charging

#14706120

#### EB5000

- 5000 watts, 120/240V
- Provides 7,000 watts for 10 secs to start larger equipment
- Honda commercial iGX engine & heavy duty frame
- Full GFCI protection
- Long run time - up to 11.2 hrs
- 120/240V selector switch
- 2 wheel kit & lift hook

#14706135

#### EB4000

- 4000 watts, 120/240V
- Provides 5,000 watts for 10 secs to start larger equipment
- Honda commercial iGX engine & heavy duty frame
- Full GFCI protection
- Long run time - up to 16 hrs
- 120/240V selector switch
- 2 wheel kit & lift hook

#14706125

#### EB6500

- 6500 watts, 120/240V
- Provides 7,000 watts for 10 secs to start larger equipment
- Honda commercial iGX engine & heavy duty frame
- Full GFCI protection
- Long run time - up to 10.4 hrs
- 120/240V selector switch
- 2 wheel kit & lift hook
