## TRAFFIC PAINT

### Traffic Line Paint

For marking traffic lanes on streets, highways, parking lots, warehouses and other areas where such marking is required. Glass beads may be applied onto this coating while wet to provide light reflecting markings. Use on interior or exterior asphalt or concrete horizontal surfaces such as streets, highways, parking lots or warehouses.

### WATER BASED

White	#12901600	#12901601
Yellow	#12901500	#12901501

Also Available: Green

## GLASS BEADS

### GLASS BEADS

Glass beads are used to add reflectivity to traffic or marking paint. They are to be applied on the surface of wet paint as soon after application as possible. Embedding glass beads into highway safety markings creates reflective lines that shine through darkness, rain, and fog to direct drivers more safely along the road.
