

TRAFFIC SAFETY SUPPLY COMPANY

Your Traffic Sign & Supplies Resource Since 1956

SIGN FACES AND DECALS

All standard signs are available as a sign face, which can be easily applied to bare aluminum or on top of existing signs that have been defaced due to weather or vandalism. Sign faces are available in Engineer Grade, Super Engineer Grade, Hi-Intensity Prismatic, or Diamond Grade sheeting.

DECALS

We offer a variety of pressure sensitive decals. Many customers apply these decals to doors, windows, and machinery.

BARRICADE SHEETING

Barricade sheeting is available with Orange and White 6" wide diagonal stripes or Red and White 6" wide diagonal stripes and in Engineer Grade reflective or Hi-Intensity reflective. Please specify color when ordering. Barricade sheeting may also be ordered with a 4" stripe.

BARRICADE SHEETING

6" Stripe Right Hand EG	Part Number	6" Stripe Right Hand Hi-Intensity	Part Number
7-3/4" x 50YD Roll	#11200400	7-3/4" x 50YD Roll	#11200425

CONSPICUITY SHEETING

For large truck, bus, and utility vehicle safety we offer Scotchlite™ Diamond Grade Conspicuity Sheeting. Used to mark the sides and rear of vehicles for enhanced visibility and detection. Conspicuity sheeting allows approaching drivers to see your vehicle from far distances.
