ADA DETECTABLE WARNING MATS

Flexible surface applied mat constructed of extremely durable, UV protected polyurethane. This flexible mat has a proprietary pre-applied adhesive system that enables installation in less than 10 minutes.

No adhesives to apply- simply remove protective backing
Conforms to uneven surfaces- flexible polyurethane material
Unbreakable- will not chip, crack, or splinter.

Installs on both asphalt and concrete multi-surface adhesive system

Available in three standard colors:
Yellow, Black, and Brick Red.

ADA Warning mats are provided with sturdy mechanical anchors.

CAST-IN-PLACE & EZ SET ADA DETECTABLE WARNING MATS

CAST-IN-PLACE DETECTABLE WARNING TILE

- Pleasing architectural quality appearance and high performance product with geometry strictly compliant with all applicable codes.
- Approved for use by all major municipalities, DPW's and state DOT's.
- Wear resistance properties far superior to that achieved with concrete based materials of any type.
- Eliminates hairline cracking observed in epoxy based and VPC (Vitrified Polymer Composite) based materials.
- Virtually impervious to absorption (key indicator of durability) when compared to concrete, epoxy, or VPC materials. Not affected by chemical exposure.
- Performs well when subjected to snow removal operations.
- Easy to clean and replace when necessary.
- Pigment is uniformly distributed throughout the thickness of our products.
- Long term color stability without the need for secondary coatings.
- For use in new curb ramps or new construction.
- Pressed into place in freshly poured concrete.
- Cast-In-Place Tiles have a 1/4" nominal thickness and feature embedment ribs 3" on center through entire length of tile.
- Plastic sheeting protection covers entire surface of Cast-In-Place Tile.
