## BIKE RACKS

### BIKE RACKS

- Available in eight standard sizes to accommodate 3, 5, 7, 9, 11, 13, 15, or 17 bicycles. (Larger sizes available.)
- Classic serpentine style rack allows parking of one bike per loop.
- 2-3/8" O.D. ASTM (.154" wall) Schedule 40 steel pipe co
- Racks stand 36" tall and are bent using a 6" centerline radius
- Ideal for locking the frame and tires of the bicycle for added security
- User friendly design allows easy access to the bicycle racks even at full capacity.
- Unique design enables loading of bicycles from either side
- Ideal for high security U-shaped bicycle locks and braided cable bicycle locks.

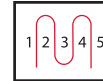

Mounting Options: Embedded mount (standard) or flanged surface mount (optional).

Finish Options: Hot-dipped galvanized (standard & recommended); polyester powder coated (optional)

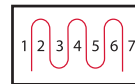

When ordering designate "-E" for embedded racks or "-F" for flanged racks after the part number
