TRAILER MOUNT MESSAGE SIGNS

Traffic Safety Supply Company has configured the BRICK display panel into several sizes to meet a variety of applications.

These Truck Mounted Signs can accommodate a variety of BRICK configurations mounted either vertically or horizontally.

This flexibility allows our customer to choose a sign based on both message and budget requirements.

Controller

- Handheld terminal operated from inside the cab
- Create, edit, display messages
- Store up to 200 sequences
- Includes Arrow Board operation
- Create messages on the go

#14200150

These signs come complete with display BRICKs, steel frame, electric actuator, in cab control box, all wiring, communications cable, hand held terminal (HHT), and software.

6x2 vertical:	Three line 88" wide by 42" tall.	Center pivot or fixed mount available	#14200155

BRICK® VEHICLE MOUNTED MESSAGE SIGN

Features and Benefits

- Requires no fans, filters or environmental controls
- Configured precisely to customer specifications
- Integrates into existing applications
- The BRICK's polycarbonate face is impervious against impact
- Black acrylic silk screened face minimizes glare and won't wash out in sunlight
- Connections for power and communications are already mounted on the back of each BRICK

Power

- Runs off 12VDC vehicle electrical system

Back Panel

- Flat black powder coat finish
- Lightweight, wind load tested

BRICK® LED Module

- Self-contained, sealed LED unit
- High Density, 30° angularity
- Replace a single BRICK®
- Plug-and-play simplicity

Legibility

- Superior legibility
- Automatically adjust LED brightness from 0 to 100% for ambient conditions

Message Display

- Full Matrix
- Variable width/height fonts

VEHICLE MOUNTED MESSAGE SIGN WITH TOUCH SCREEN CONTROLLER

Features and Benefits

- Full-matrix message signs available in two sizes
- Multiple fonts and graphics
- Touch-screen controller with intuitive interface
- Travel height under 12 inches
- Interface Handheld controller with 7-inch color touch-screen
- Fonts 10-inch standard font-height
- Up to 12 fonts, from 4x5 to 11x23 pixels, depending on model
- Graphics Preprogrammed, custom and MUTCD-standard, including bold arrows
- Standards Meets MUTCD

TOUCH-SCREEN CONTROLLER

The Handheld touch-screen controller is installed inside the cab and always shows the message displayed on the sign.

An integral low-profile tilt frame, operated from inside the cab, lowers the sign from vertical to horizontal when not in use. In travel position, the sign and frame are just 12 inches in height.
