## LIGHTING BALLOONS

- Glare-free light over 360°
- Powerful: lights up to 10,000m<sup>2</sup> - 108,000 sq/ft.
- Halogen, HTI (HQI) or HMI light: from 250w to 4,000w
- Easy to set up, easy to use
- Reliable and resistant to all weather conditions
- Wide choice, large versatility

On construction sites, the lighting balloon offers higher efficiency compared to traditional strobes. You can see better and you can be seen better thanks to a homogeneous glare-free light. Using Sirocco balloons is the way to guaranty safety for your crew and also for your work site.

### SIROCCO 750 WATT HALOGEN LIGHTING BALLOON

#### The Balloon

- Diameter: 24" w x 15" h
- Self-inflated by a built-in fan
- Tubular envelope offers a better light diffusion

#### Safety & Reliability

- IP54 Balloon
- The Envelope is Flame-retardant
- The fans circulating air keeps the envelope inflated and the lamp cool
- Safety system by temperature sensor

#### Advantages

- Mobile and compact: Ideal for lighting small areas
- Versatile: Can be plugged in either on a generating set, main line, vehicle batteries, or cigarette lighter
- Inflates in 45 seconds as soon as plugged in
- Sets up by one person in less than 3 minutes
- Compact carry case 20"x10"x10". Weighs only 9lbs.

Carry case included!

### SIROCCO 2,000 WATT HALOGEN LIGHTING BALLOON

#### The Balloon

- Diameter: 36"
- Self-inflated by a built-in fan
- Tubular envelope offers a better light diffusion

#### Safety & reliability

- IP54 Balloon
- Flame-retardant fabric
- Special stabilizer to protect the lamps
- Innovative safety system with pressure switch

#### Advantages

- Efficient: diffuses a powerful soft light due to halogen lamps
- Rain and dust proof
- Effective light diffusion (360°)
- Tubular envelope: more light for working areas
- Ideal for construction sites
- Vibration-resistant system included
- Improved lamp life expectancy
- Improves mobility, saves costs
- Improved durability
- Wide operational temperature range

### SIROCCO 4000 WATT LIGHTING BALLOON

#### The Balloon

- Diameter: 48"
- Pop-up Envelope
- Tubular envelope offers a better light diffusion

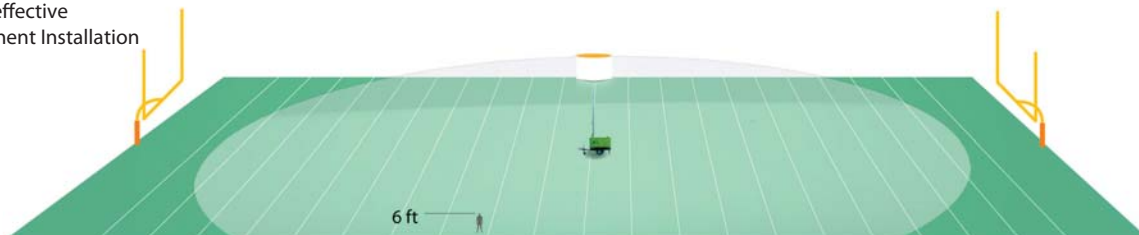

#### Safety & reliability

- Wind Resistant: Up to 70 mph designed to withstand the most challenging and rigorous weather conditions
- Rain, snow, and dust resistant
- IP54 product
- Flame-retardant fabric

#### Advantages

- 360° light distribution more glare free light for working areas; Ideal for construction
- Improved lamp life - Saves money
- Perfect for long-term rentals
- Low maintenance and cost-effective
- Semi-Permanent and Permanent Installation
