PRODUCT DESCRIPTION

FirstGard is a foldable traffic cone that can be deployed nearly instantly. Lightweight but heavy enough to remain stable, FirstGard is designed to be transport-friendly with a small storage footprint. This innovation in channelizing devices will provide road construction and emergency management teams with increased conspicuity and visibility while in conformity to the MUTCD.

SPECIFICATIONS

- **Foldable Design:** FirstGard is the ultimate solution for transport-friendly traffic cones. Our patent-pending design allows easy transport, folding to just 1.5" wide, requiring minimal space to store multiple units.
- **Lightweight, stable and durable:** Crafted from high-density polyethylene, FirstGard can withstand the toughest conditions. It's durable construction ensures it remains stable while alerting and redirecting traffic effectively.
- **Repairability:** Accidents happen. That's why FirstGard features a replaceable connecting hinge component, allowing for easy repairs should any damage occur. Rest assured; your FirstGard cones will stand the test of time.
- **Visibility:** Lab testing indicates that FirstGard is up to twice as reflective as the average 28" traffic cone.
